(*i*) From the third proviso of the preamble *delete* the words "kerosene-oil."

(*ii*) From the Schedule *delete* the words "(A) Kerosene-oil."

No. 2284.—The following extract from the *Board of Trade Journal*, dated the 2nd October 1919, is published for general information :—

GOVERNMENT NOTICES AFFECTING TRADE.

EXPORT SECTION.

Trading with late enemy and other countries.

The following notes on trading conditions as affected by the raising of the blockade, the authorisation of the resumption of trade with Germany and other countries, and the removal of United Kingdom import restrictions, are published by the Board of Trade for the information of British traders. These notes supersede those published in July last as Parliamentary Return "Cmd. 274."

During the war it has been necessary to prohibit all trading with the enemy, but with the conclusion of peace with Germany this necessity for this prohibition has ceased. It may be expected that there will be a considerable demand in the late enemy countries for all kinds of goods; as this market is now open to all the world, it is no part of the policy of His Majesty's Government to discourage British traders from competing therein, and it is desirable that British traders should make every effort to secure a proper footing in Central Europe.

I.—GERMANY.

Exports.—Any goods may be sent to Germany without licence, except goods on Lists "A" and "B" of prohibited exports. Applications for export licences in respect of goods included in these lists should be addressed to the Export Licence Department, 1, Queen Anne's Gate Buildings, Westminster, S.W.1. It is understood that at present the import of all goods into unoccupied Germany is subject to import licence for which the German consignee has to make application to the competent authority in Berlin.

Imports.—Any goods may be imported from Germany, and paid for, without licence, except goods whose importance from all foreign countries is prohibited. Import prohibitions now apply only to a small number of goods, a list of which will be found in the "Board of Trade Journal" of the 28th August 1919.

Other transactions.—Other transactions of a commercial or financial nature with firms in Germany are permissible without further licence, provided they do not involve any of the following matters, namely:—

(*a*) the payment of money arising out of pre-war transactions;

(*b*) the delivery of or dealing with property held in this country for persons in Germany since before the outbreak of war;

(*c*) the transfer of securities by or on behalf of a person in Germany;

(*d*) the allotment or transfer of securities issued by a company to or for the benefit of a German subject;

(*e*) the transfer of any debt or other obligation due to a person in Germany.

It should, of course, be understood that, as regards the financing of transactions, traders must make the best arrangements they can, and, in case of uncertainty as to the best mode of procedure, they should consult their bankers.

II.—THE TERRITORIES PREVIOUSLY INCLUDED IN THE AUSTRO-HUNGARIAN DOMINIONS.

The British regulations are the same as those set out above in the case of Germany, except that List "D" applies in the case of exports to Austria and Jugo-Slavia.

III.—TURKEY AND BULGARIA.

Except that List "D" of prohibited exports applies to Turkey, and Lists "D" and "E" to Bulgaria, the British regulations are the same as for Germany.

IV.—NORWAY, SWEDEN, DENMARK, HOLLAND AND SWITZERLAND.

It is no longer necessary to obtain certificates from Importing Associations in these countries, or to procure other forms of guarantee, or to consign goods to such Associations. Export licences, for which application should be made to the Export Licence Department at the address given above, are required only for goods on Lists "A" and "B" of prohibited exports.

V.—POLAND, FINLAND, ESTHONIA, LETTLAND, LITHUANIA.

So far as British regulations are concerned, there are no special restrictions on trade with these countries, but as in the case of other foreign countries export licences are required for goods on Lists "A" and "B" and general prohibitions of import apply to these as to other countries.

Further information regarding the export of goods to the above and other countries will be found in the "List of Export Prohibited Goods," which is published fortnightly by the Export Licence Department of the Board of Trade, 1, Queen Anne's Gate Buildings, Westminster, S.W.1.

Consular certificates of Origin and Interest.—These certificates are no longer required for goods imported into this country.

Declarations of ultimate destination and disclosure of names of consignees.—These declarations will no longer be required to be made in respect of exports from the United Kingdom, and disclosure of the name of the consignee on Bills of Lading or Shipping Manifests is unnecessary, except in a limited number of cases where the Export Licence Department may continue to specify on an export licence the name of the consignee.

No. 8295.—The following Board of Trade List, dated the 10th October 1919, on the subject of prohibitions of export from the United Kingdom, is published for general information.—

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany, Austria, Hungary, and Arabia in respect of pre-war transactions.

The Licences do not permit the importation from Germany, Austria, Hungary or Arabia of any goods included in the Prohibition of Import Proclamation and not covered by a General Licence issued under these Proclamations. (a) in Group A subjects

either

(i) in English five marks above the Presidency average and in each of the other two subjects (except Vernacular Composition and Translation in the case of school pupils who study a classical or a foreign language under Group C and are therefore excused the study of the former subject under Group A) not less than the Presidency average;

or

(ii) of the total marks, in English 40 per cent and in each of the other two subjects (except Vernacular Composition and Translation in the case of school pupils who study a classical or a foreign language under Group C and are therefore excused the study of the former subject under Group A), 35 per cent;

(b) in Group C subjects

either

(i) five marks above the Presidency average in Algebra and Geometry, or Physics, or Chemistry, or English History, and not less than the Presidency average in one other subject;

or

(ii) of the total marks, 40 per cent in Algebra and Geometry, or Physics, or Chemistry, or English History, and 35 per cent in one other subject.

2. A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition or in Elementary Mathematics shall be eligible for admission, provided he obtains excess marks in English and the other subject of Group A taken together equal in number to twice the number of marks by which he is deficient in the subject in which he fails.

A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition *and* in Elementary Mathematics shall be eligible for admission, provided he obtains excess marks in English equal in number to twice the total number of marks by which he is deficient in the two other subjects.

3. A secondary school-leaving certificate holder who qualifies in one of the four selected subjects in Group C but who fails to qualify in a second subject of that group shall be eligible for admission, provided that in the former subject he obtains excess marks equal in number to twice the number of marks by which he is deficient in the latter subject.

4. A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition, or Elementary Mathematics, or in both, and also in a second subject of Group C may be declared eligible for admission, provided that he obtains excess marks as above both in the other subject or subjects in Group A and in one of the four selected subjects of Group C.

5. The eligibility of a school-leaving certificate-holder will be determined for each Group of subjects separately, by the test of Presidency averages or fixed percentages throughout, or by the test of Presidency averages in Group A and fixed percentages in Group C, or vice versa.

6. A secondary school-leaving certificate holder who fails to qualify under the preceding rules by reason of deficiency of marks,

(a) *in one subject only*—

will be declared eligible for admission,

if the deficiency of marks is not more than one mark, irrespective of his total marks.

or

provided that the deficiency of marks	if his total marks amount to
is not more than 2 marks.	not less than 200
Do. do. 3 "	do. 250
Do. do. 4 "	do. 300
Do do. 5 "	do. 350

and so on

or

(b) *in two subjects only*—

will be declared eligible for admission	if his total marks amount
provided that the deficiency is not	not less than to 250
more than 1 mark in one subject	
and 1 mark in the other subject.	
" 1 mark and 2 marks	do. 300
" 2 marks and 2 marks	do. 350

For the purpose of this rule, in calculating the total marks gained, the higher mark obtained in each subject will be selected, whether examination mark or moderated mark, and in calculating the deficiency of marks the smallest deficiency will be selected after application of both alternatives in rules 4 and 5 and after applying rules 2, 3 and 4.

In the case of a secondary school-leaving certificate-holder who has been exempted the study of Vernacular Composition and Translation and has taken a classical or foreign language and *one* other subject only under Group C, the total marks required under this rule will be reduced by one-fifth, provided always that in the case of such certificate holder no total number of marks will be allowed to compensate for deficiency of marks in the language so taken under Group C.

In the case of a certificate-holder who has been exempted the study of Vernacular Composition and Translation and has taken a classical or foreign language and *two* other subjects under Group C, the total marks required under this rule will not be reduced (his marks in each of the five subjects being taken into account), and compensation for the deficiency of marks will be admissible under this rule irrespective of subject.

7. The moderation of the marks obtained by a holder of a secondary school-leaving certificate for the purpose of the above rules will be effected as follows:—

The individual mark gained by him for the last year at school in each subject will be multiplied by the average mark for the school at the Public Examination and the result divided by the average mark at school of the candidates from the school actually appearing for the Public Examination. The figure thus obtained will be added to the individual mark gained by him at the Public Examination and the total will then be divided by two to obtain the final moderated mark.

8. In the case of certificates issued under the authority of Native States in the territorial jurisdiction of the University similar standards for admission will be applied.

V. Any candidate for admission to University courses of study who in any year fails to qualify by reason of deficiency in any subject or subjects in which he has undergone examination will be required to undergo a supplementary course at school in all the subjects of Group A and in two subjects of Group C. He must again appear at the Public Examination at the close of this supplementary course and his eligibility for admission will be determined as if he had then appeared for the examination for the first time. In the case of a candidate who, after undergoing a supplementary course and examination, has failed again to qualify for admission to University courses of study, and who is permitted to appear at the Public Examination in a subsequent year after private study, eligibility for admission will be determined upon his last examination marks alone.

VI. Hereafter candidates for admission to colleges, whose last appearance at the Public Examination was in 1917 or earlier, must submit their certificates to this office for inspection not later than the 30th April. Every such certificate will be judged by examination marks alone according to the rules in force for certificates completed in the year in which it is submitted for inspection except that the best performance in each subject in any year will be taken into consideration.

VII. Notwithstanding anything contained in the foregoing rules, the Principals of Colleges for Women will be permitted to make admissions at their discretion of female holders of secondary school-leaving certificates whether or not the names of such holders of certificates are included in the published list of certificate holders eligible for admission to University courses of study. Certificate-holders so admitted to Colleges for Women will be registered as matriculates under Regulation 1 of Chapter XVI.

VIII. The lists published annually in the *Fort St. George Gazette* will contain the names of all certificate-holders found to be eligible for admission to University courses of study in affiliated colleges, other than Colleges for Women, under the rules and directions issued by the Syndicate. It is, however, to be clearly understood that inclusion in the list confers on no certificate-holder the right of admission to any affiliated college. The Principals of Colleges are at perfect liberty to restrict admission to such applicants as they may select and are moreover required strictly to confine admission to such eligible certificate-holders as, judged by their certificates, may be expected to profit by the particular courses of study upon which they propose to enter in the college selected.

OF

THE FORT ST. GEORGE GAZETTE.

No. 47.] MADRAS, TUESDAY EVENING, NOVEMBER 25, 1919. [Price, 6 pies.

AUDIT ORDER OF THE TRIPLICANE URBAN CO-OPERATIVE SOCIETY, LIMITED, FOR 1918-19.

The accounts of No 15 Triplicane Urban Co operative Society, Limited, for the Co-operative year ending 30th June 1919 as audited by M.R.Ry. S. Krishnaswami Ayyar, Chief Inspector, Madras section, are passed. Statements showing (1) Receipts and disbursements, (2) Profit and loss, (3) Assets and liabilities furnished by him are appended to this order.

2. The year under review is the 14th year in the society's working. The number of members rose from 2,798 at the beginning of the year to 2,839 at its end and the share capital from Rs. 42,344-4-8 to Rs. 43,798-11-11. The borrowing under fixed deposits (including security deposit, recurring deposits and chit fund deposits) stood at Rs. 48,510-11-1 at the end of the year against Rs. 40,683-13-1 on the last day of the previous year. The society was prompt in the repayment of deposits

3. Three hundred and thirty-nine loans aggregating to Rs. 34,882 7-8 (excluding a loan of Rs. 2,500 to the Madras Narrungadu Co-operative Society) were disbursed to members in the year under review against 321 loans to the value of Rs 16,814 in the previous year. There were 466 loans amounting to Rs. 34,291 8-4 outstanding against members on the last day of the year under review. It is hoped that the society will be prompt in collecting the overdue loans which amount to Rs. 2,871-11-3.

4 The society purchased goods during the year to the value of Rs. 5,07,867-14-8 against Rs. 4,33,513-7-11 in the previous year and the amount of sales during the year to members was Rs. 5,36,681-14-0 against Rs. 4,73,775-7-4 in the previous year. The gross profit earned in the year under this transaction was Rs 43,743-8-3 while the previous year's gross profit was Rs. 37,932-15-10.

5 The society earned during the year a net profit of Rs 23,269-5-4 against Rs 17,671-5-8 in the previous year. Out of the amount a sum of Rs. 1,246-13-7 was earned in the credit department and the balance Rs. 22,012 7-9 in the stores department The amount due to reserve fund out of the profit of the year is as follows:—

	Rs.	A.	P.
1. Entire net profits of the credit department (by-law 62)	1,246	13	7
2. The whole entrance fees realised during the year (by law 56) ..	94	8	0
3. Chit fund contribution (by law 55-A)	32	11	7
4. One-fourth of the profits of the distribution department after deducting from it entrance fees and chit fund contribution (i.e.) one-fourth of Rs. 21,915-4-2 (by-law 63)	5,478	13	1
Total ..	6,922	14	3

adding this amount with the figure due for 1915-16 and 1916-17 the total reserve fund will now amount to Rs 51,755-1-2 There is difference between the society's figures published in the half-yearly report and the audited figures now furnished by the auditing Inspector. This difference is due to the fact that whereas the society closes its account every half-year under its by-law 30-A, the audited figures deal with the transactions of the society for a full co-operative year from 1st July to 30th June. The advantages of a half-yearly audit are undesirable; but it is doubtful whether it is advisable to close the accounts half-yearly; since under section 34 of the Act the statutory audit and the distribution of dividends has to be annual. The society will be addressed separately on this question. As regards the investment of reserve fund separately it is reported that the same has been invested partly in house property, which was insured for Rs. 20,000 in the Queens-land Insurance Company, Limited, and partly in the Madras Central Urban Bank. Investment of the reserve fund in house property is under the existing rules illegal and the society will be separately addressed on the subject.
